# THE NATIONAL GUARD

## Arrangements Made for Annual Camp Near Leesburg, Va.

### SITE REGARDED AS MOST DESIRABLE

#### Brigade to Go Under Canvas the 10th of June.

#### PERSONAL AND OTHER NEWS

Although the official contracts have not been actually signed it is practically a certainty that the troops of the District of Columbia National Guard will go into camp this month in the vicinity of Leesburg, Va. The site for the rendezvous camp of the brigade is about one mile from the town of Leesburg. It was inspected a few days ago by General Harries, Major Parmenter, quartermaster general, and Major Neumeyer, commissary general. These officers are unanimous and emphatic in declaring that the country is admirably adapted for the purpose in view. They report that the water for drinking is unexcelled, both as regards quantity and quality. The facilities for bathing are excellent, the elevation is high, the timber is sufficient, and the roads could hardly be better. The camp will be in the very midst of supplies of all sorts. It is convenient to Leesburg and accessible to this city, trains running at frequent intervals. All in all, it is promised, the encampment of the District troops during the summer will be the most successful, enjoyable and best arranged in the history of the local brigade.

The troops of the National Guard will leave this city for camp by special train about 9 o'clock the morning of Saturday, June 10. The brigade will be under canvas, it is intended, with everything in complete running order, by noon the same day. An entirely new outfit of camp equipment has been secured.

The rendezvous camp will consist of the most perfect of the private bath, including the hot water, the pool and supply an abundance of towels, linen for only 50c. BY BRINGING BY OUR EXPERT ATTENDANTS, extra.

As heretofore stated in The Star, the idea is to instruct the officers and men of the National Guard as fully as may be possible regarding the conditions they will have to meet in active service in the field. Practice marches will be the feature of the week's outing. It should be borne in mind, however, that these marches are to be for instruction and not for exhaustion. They are to be very easy, for the reason that a march of three or four miles will serve for the purposes of instruction as well as would a march of thirty or forty miles. Immediately after the troops reach the rendezvous camp, two for three battalions will be dispatched on a practice march. They will proceed three or four miles, pitch their tents, spend the night under the same, and return to camp by the same route the following day, when other battalions will be sent out. This procedure will be followed throughout the week.

There will be a little work done in the way of dress parades and other ceremonies, with the exception, of course, of guard mounting. Throughout the entire encampment there will be a display of more than one or two dress parades. These will be complimentary to the citizens of Leesburg and vicinity, who have already given the National Guard a most cordial and powerful to make the stay of the guardsmen among them just as pleasant as possible.

### The Commissary Establishment.

The commissary arrangements for the camp will mark a departure from the rule of former years. There will be no battalion messes, each company looking after its own supplies. Each will be allowed a stipulated sum for the employment of every commissary. If the men shall not be fed properly, then the responsibility will rest where it properly belongs, on the company commander.

As regards supplies, it is asserted that there will be no possible room for complaint. Gen. Harries and his staff realize that the men ought to have good food and that the commissary should be able to supply the need. The commissary will be supplied with the best of the prescribed uniform while in camp.

### Conspicuous by Absence.

An absence of hired men will be noticed at the Leesburg camp. The professional cooks and a few servants, including teamsters, will constitute the force of employees. The enlisted men of each company will be detailed to assist in the culinary department from time to time. In this connection it may be stated that every commissary will be supplied with a locked mess box, where superfluous rations and supplies may be stored in safety. All officers of the regimental staff and the regimental and battalion staffs will be mounted. Everything is to be done, as stated, to make the outing as pleasant as possible for all.

There will be band concerts every evening, and to these the people of Leesburg will be invited. Ample accommodations will be provided for the people of Leesburg and vicinity, who are so cordially and warmly welcomed to the camp.

General orders, covering all details of the outing, will be issued from headquarters early next week.

The camp will break camp Saturday, the 17th of June, and reach this city late in the afternoon of that day.

### Naval Battalion's Practice Cruise.

The program of the week's work on board the United States steamer Prairie by the Naval Battalion, District of Columbia National Guard, on the occasion of its first annual practice cruise, next June, has been prepared by Assistant Secretary Allen, as follows:

## ROSSELL P. FLOWER DEAD

### Stricken by Attack of Acute Indigestion at Eastport, L. I.

#### He Was in Apparent Good Health When He Reached the Resort Yesterday Morning.

Former Governor Roswell P. Flower died at 10:30 last night at the Eastport Country Club at Eastport, L. I. Mr. Flower was taken ill early in the day with a severe attack of acute indigestion. In the afternoon symptoms of heart failure supervened, and he grew steadily worse until the time of his death. The attack of heart failure was accompanied by a fainting spell, and Mr. Flower's family in New York city were quickly notified. Mrs. Flower and the former governor's nephew, Frederick S. Flower, accompanied by Dr. Thomas H. Allen, Mr. Flower's physician, left at once on a special train for Eastport. When they arrived there Mr. Flower had somewhat recovered, but later the attack of heart failure was marked, and Mr. Flower became unconscious an hour or more before his death.

### Sketch of His Career.

Roswell Pettibone Flower was born in Theresa, Jefferson county, N. Y., August 7, 1835. His father was born at Oak Hill, Green county, N. Y., and his ancestors went from Connecticut. Roswell was the sixth of nine children, and when his father died he was eight years old. He worked on his father's farm, and was a farmer, and spent his time between school sessions in the hardest kind of labor.

He became deputy postmaster of Waterbury, N. Y., in 1852, and kept a grocery six years. Then he became a partner in the jewelry firm of Hitchcock & Flower, bought out his partner at the end of two years, and continued in the business until 1869.

Mr. Flower came to New York in that year to take charge of the estate of Henry Ketch, whose widow was Mrs. Flower's sister. Mr. Ketch owned a great many railroads and other stocks, and during the year he was in New York he spent much time in the city, and he was very successful in his business.

Mr. Flower was a member of the New York State bar, and he was very successful in his business. He was a member of the New York State bar, and he was very successful in his business.

### Justice to New Mexico.

The New Mexico people residing in Washington were much pleased to read the interview with Mrs. L. Bradford Prince in yesterday's Star, relative to the article entitled "In Rural New Mexico," copied from the St. Louis Globe-Democrat. Eastern people who are fair minded express great surprise when, upon visiting New Mexico, they find the civilization of the territory equal, if not superior, to many sections in the east. The territory is anxious for a fair and truthful exposition of its varied resources and advantages in the press of the "States." The correspondents traveling through New Mexico, and what his circumstances may be, wrote up the ideas presented in his journal from the home office.

When the railroad first reached the territory in 1879 there was much disorder and lawlessness, brought about by the large influx of American citizens from the east. This lasted for a year or two, when the better element got the upper hand, and the thieves, gamblers and disreputable characters generally were made to move on. Now the territory is a law-abiding and progressive country, and it is a pleasure to see that the New Mexico people are so well represented in the press of the "States."

### Defeated W. W. Astor.

Mr. Flower was chosen chairman of the democratic state committee in 1877, and in 1881 he defeated William Waldorf Astor for Congress, after a hot campaign, in the eleventh district. His majority was 3,100, while Levi P. Morton, Republican, had carried it at the last previous election by more than 7,000 votes. He refused a renomination in 1881.

In the cholera epidemic in the late summer of 1882 thousands of passengers arriving from Europe were quarantined on shipboard down the bay. As an emergency measure Governor Flower bought with his own money the Fire Island Hotel, in the name of the state, and ordered that the passengers be sent there.

Mr. Flower took up Brooklyn Rapid Transit less than two years ago, buying from 20,000 to 30,000 shares at about 25c, when the capital stock was only \$25,000,000. He absorbed many subordinate lines, among them the Nassau Electric Company, and increased the capital stock to \$14,000,000, and by his extraordinarily successful manipulation put the price up to 137. His holdings in Brooklyn Rapid Transit alone, which cost him two years ago little more than \$200,000, are worth at today's market price more than \$2,000,000.

### LEFT TO SOUTHERN WOMEN.

#### Care of Confederate Dead in Maryland and the South.

Following are the resolutions in full regarding the case of confederate dead adopted at Charleston, S. C., yesterday by the reunion of confederate veterans:

That the committee to whom was referred the resolution introduced by Gen. S. D. Lee beg to report the following substitute, with the recommendation of the committee that the same be adopted:

The United Confederate Veterans, in this annual reunion assembled, desire to place upon record their sincere appreciation of the utterances of the President of the United States in Atlanta in December last concerning the assumption of the care of the graves of our confederate dead by the national government, which were so graciously expressed, and we shall welcome any legislation which shall result in the care of the graves of our comrades in the northern states in the confederacy and Maryland, the care of their final resting places is a sacred trust, dear to the hearts of southern women, and we believe that we can safely let it there remain.
